Summary

Full Stack Web Developer with hands-on experience building responsive, scalable web applications using HTML5, CSS3, JavaScript, Python, and Java. Proven ability to deliver user-centric solutions through professional internships and self-driven engineering projects. Possesses a strong foundation in Data Structures & Algorithms (DSA), Object-Oriented Programming, and scalable web architectures.

Education

KCC Institute of Technology and Management

Bachelor of Technology in Computer Science Engineering (Dr. APJ Abdul Kalam Technical University) Sep 2024 – May 2027

Uttar Pradesh, India

Delhi Skill and Entrepreneurship University

Diploma in Computer Engineering Dec 2021 – May 2024

New Delhi, India

Work Experience

Frontend Web Developer Intern

Aug 2023 – Sep 2023

Codesoft

Remote

- Developed and maintained responsive UI components using HTML5, CSS3, and JavaScript, improving overall page load performance.
- Collaborated with cross-functional design teams to implement pixel-perfect, cross-browser-compatible user interfaces for client-facing web applications.
- Participated in codebase reviews and adopted development best practices, contributing to a cleaner, modular, and highly maintainable codebase.

Projects

TenderTrace | Smart Tender Monitoring Platform | MERN Stack

- Built a MERN-based tender management system for government, contractors, and citizens.
- Integrated facial recognition attendance, worker management, and daily expense tracking.
- Developed real-time dashboards for project progress, expenditure monitoring, and transparency.

ChatHub.Ai | AI Chatbot Platform | React, Gemini API, JavaScript

- Developed a modern AI-powered chatbot application using React and Gemini AI, enabling real-time conversational interactions.
- Implemented voice input functionality, chat history management, and theme customization.
- Built a fully responsive UI and integrated Gemini API for intelligent responses.

Renterr | Car Rental Web Application | HTML5, CSS3, JavaScript, Node.js

- Architected a dual-platform web application supporting separate login portals for customers and vehicle providers, optimizing access control and UX.
- Built an intuitive dashboard allowing users to filter, reserve, and manage vehicle bookings in real time.
- Implemented secure session management and role-based routing mechanisms to differentiate user and provider workflows.

Stylelane | E-Commerce Web Application | HTML5, CSS3, JavaScript

- Built a full-featured e-commerce platform facilitating fluid product discovery and direct buyer-seller interaction channels.
- Integrated an animated product slider component for dynamic offer layouts, driving measurable user engagement.
- Designed a responsive, mobile-first design system ensuring an optimized, high-fidelity experience across desktop and mobile browsers.

Technical Skills

Languages: Python, C++, JavaScript, HTML5, CSS3

Web Technologies: React.js, Node.js, Express.js, MongoDB, REST APIs, Responsive Web Design

CS Fundamentals: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)

Tools & Platforms: Git, GitHub, VS Code, Figma, Linux

Soft Skills: Problem Solving, Communication, Team Collaboration, Self-Motivated
